EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

IN THE SPECIFICATION:

On page 5, line 36, the term "casing 11" was deleted and replaced with -- casing 12-- since that is how the casing was previously defined in paragraph [0031] and shown in the drawings. Additionally note that reference numeral 11 was previously defined as the operating member.

IN THE CLAIMS:

In claim 8, line 13, a period --- was inserted at the end of the line to correct an obvious typographical error/oversight.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach or fairly suggest a hand stamp assembly having all of the structure as recited, in combination with and

particularly including, a frame, an operating member slidably mounted on the frame, and a cover disposed to engage a portion of the operating member upon depression of the operating member, *whereby a portion of the operating member becomes engaged with a portion of the frame such that the hand stamp is locked in a compressed position.*

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Shih (US 6,843,173) and Tsurumi (JP 60-162684) each teach a hand stamp apparatus having obvious similarities to the claimed subject matter, although neither teaches nor renders obvious the hand stamp assembly as specifically recited in claims 1-10.
